

# Enlargers

## 67 XLC

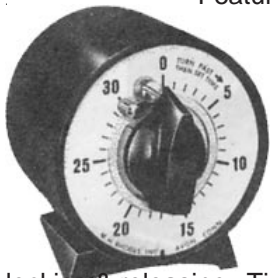

**\$995.00**

Beseler's newest 6x7 black and white enlarger features a newly designed single column which emulates the braced twin channel design found in Beseler's "top of the line" 45V-XL chassis. Rigid and sturdy this column assures solid support at even the highest magnifications. Improved rack and pinion elevation control with locking mechanism and elevation reference scale characterize the latest improvements in this new 67 series enlarger. The 67XLC projection assembly features oversized 4" condensers, quick change metal lens boards, below the lens accessory holder, above baseboard completes the package.

**Includes 50mm lens, Standard lens board and 35mm film carrier**

## Mark Timer Photographic Timer

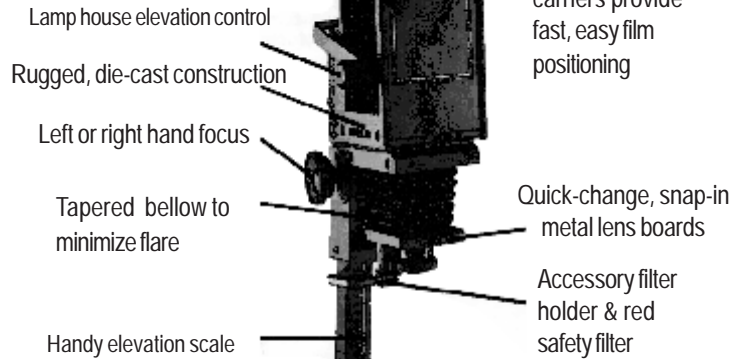

Features grounded 3-wire plug 60 second range. Especially designed for timing developers, contact printers, enlargers & photo copy equipment. Times equipment up to 60 seconds, then shuts off current. Adjustable stop makes repeated settings easy and fool-proof. Push button lock release provides fingertip control of locking & releasing. Time switch may be operated as manual on-off switch for focusing. With luminescent dial.

**MT-78380 60 second range \$74.00**

## Printmaker 35

**\$595.00**

The Printmaker's compact size make it perfect for small dark rooms temporary darkrooms or portable darkrooms. It can produce prints up to 11" x 14" in the base-board or much larger when reversing the column and projecting on the floor. Additional features include a focus knob which can be attached for either left or right handed use, a built in elevation scale and a below the lens filter holder.

**Includes 50mm lens, Standard lens board and 35mm film carrier**

## Beseler 23CIII-XL Enlarger
